

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

AMONG THE PUBLISHERS.

A SECOND revised and enlarged edition of a popular work on the tariff question, entitled "The Free Trade Struggle in England," by Gen. M. M. Trumbull, will shortly be issued by the Open Court Publishing Company.

— Charles L. Webster & Co. will soon issue a work by R. L. Garner, entitled "The Speech of Monkeys." This work embodies his researches up to the present time. It is divided into two parts, the first being a record of experiments with monkeys and other animals, and the second part a treatise on the theory of speech. The work is written so as to bring the subject within reach of the casual reader without impairing its scientific value.

— Ginn & Co. will publish at once "German and English Sounds," by C. H. Grandgent, director of Modern Language Instruction in the Boston Public Schools. The volume will contain a detailed account of the sounds that occur in German and English speech, a description of the principal local variations in the pro-

nunciation of both languages, and a series of diagrams showing the positions of the vocal organs during the formation of the vowels and the more difficult consonants.

— G. P. Putnam's Sons have in press "Japan in Art and Industry," by Felix Régamey, translated by E. L. Sheldon (fully illustrated); "The Fairy Tales of India," collected and edited by Joseph Jacobs, who follows up his "Celtic Fairy Tales" of last Christmas and "English Fairy Tales" of the preceding Christmas by a selection from the gorgeous fancy of the East, illustrated by J. D. Batten; "Hygienic Measures in Relation to Infectious Diseases," comprising in a condensed form information as to the cause and mode of spreading certain diseases, and the preventive measures that should be resorted to — isolation, disinfection, etc., by George H. F. Nuttall, M.D., Ph.D., Associate in Hygiene and bacteriology, Johns Hopkins University and Hospital; "Temperament, Disease, and Health: an essay," by Com. F. E. Chadwick, U.S.A. (retired), and "Lyrics and Ballads of Heine, Goethe, and Other German Poets," translated by Frances Hellman.

Horsford's Acid Phosphate,

FOSSIL RESINS.

This book is the result of an attempt to collect the scattered notices of fossil resins, exclusive of those on amber. The work is of interest also on account of descriptions given of the insects found embedded in these long-preserved exudations from early vegetation.

By CLARENCE LOWN and HENRY BOOTH
